RE: Transportation 2035 Investment Priorities

At the June 26th Transportation 2035 Joint Advisor Workshop, advisors were asked to weigh in on MTC staff's proposal for the Transportation 2035 financially constrained investment package, to be presented to the July 11 Planning Committee. Therese McMillan, MTC's deputy executive director for policy, reviewed the staff proposal that is based on general direction received from the Commission at a workshop held in May and at the June 13 Planning Committee.

At the joint workshop, electronic voting was used to record advisor opinions on the staff proposal. We received input on two of the three areas of the staff proposal: the Efficiency and Maintenance components.

At your meeting this coming Tuesday, I will review the preferences we heard at the Joint Advisors workshop, and will seek a recommendation from MCAC to present to the July 11 Planning Committee, with regard to the Transportation 2035 funds.

Attached is a copy of the presentation for your initial review.
